Napa Valley College Criminal Justice Training Center

Upon the recommendation of the Faculty the Criminal Justice Training Center does hereby confer upon

Wallace Jensen

a certificate of graduation from the

CALIFORNIA COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING BASIC LAW ENFORCEMENT ACADEMY

with all the rights, honors, and privileges thereunto appertaining. Fresented this 9th day of June in the year two-thousand Seven.

VERIFY THIS DOCUMENT'S AUTHENTICITY INSTANTLY!

1.00 A

The rose-colored ink printed in the oval "Heatseaker Security Spot" on the face of this document reacts to changes in temperature, and is a special security leature designed to help instantly verify this transcripts authenticity. When exposed to heat, the ink in the oval spot disappears. When exposed to cold, the ink in the oval spot reappears. If this rose-colored ink is not visible, expose the document to cold air either from an air conditioning vent, refrigerator or other cold air source. If exposure to cold air does not make the rose-colored ink reappear quickly, the auther jety of this document should be questioned and verified with C y College of San Francisco by calling the Office of Admissions & Records @ 415-239-3838. This document also has an artificial watermark on the back - hold at an langle to view.

Instructor and User Warnings, Risks, Liability Release and Covenant Not to Sue

TASER International, Inc. (TASER) does not require a TASER® electronic control device (ECD) electrical discharge (TASER ECD Exposure) as a condition for instructor or User Certification. It is up to each agency's policy to determine whether its instructors and users experience a TASER ECD Exposure as part of their training, if TASER ECD Exposures are performed, they must be performed by a TASER certified instructor¹ or an authorized TASER distributor (for non-US ECD training classes only). This document incorporates all current TASER ECD warnings by reference.2

PRIOR to any TASER ECD Training and PRIOR to any TASER ECD Exposure, all persons MUST: (1) read the most current TASER ECD warnings;

and (2) read and sign this form. IMPORTANT ECD PRODUCT SAFETY AND HEALTH INFORMATION

Read, understand, and follow current TASER training, safety instructions, and warnings before experiencing a TASER ECD Exposure and before participating in TASER ECD training. Any use of force or physical exertion involves risks that a person may get hurt or die. This document is effective May 31, 2011, and supersedes all prior revisions.

SAFETY INFORMATION: TRAINING ECD EXPOSURES

XREP™ Training Rounds, Do not fire XREP Training Rounds at humans or animals. The XREP Training Round will cause penetration wounds resulting in death or serious injury. The XREP Training Round is intended solely for practice larget shooting in order to gain familiarity with the flight profile of the XREP ECD.

Spotters. All parsons taking a TASER ECD Exposure must be properly supported by spotters so they do not fall or must be lying down on a mat. Each spotter should hold an upper arm under the armpit, so that the person can be safely supported and lowered to the ground after being hit without twisting or putting undue stress on the arm or shoulder. If probes are deployed in lieu of attaching spent wires or alligator clips, then eye protection is required for both the spotters and the person being exposed. Provided that no probes are attached to the person's arms, there should be no electrical pulses flowing into the spotters and they can safely support the person being exposed without negative impact.

No Minors. Because of parental/guardian consent issues, no minor will be exposed to a TASER ECD as part of a training course, demonstration, or otherwise.

SAFETY INFORMATION: EGD KNOWN AND POTENTIAL SIDE EFFEGTS

Physiologic or Metabolic Effects. The ECD can produce physiologic or metabolic effects which include, but are not limited to, changes in: acidosis; adrenergic states; blood chemistry, blood pressure; calclum, creatine kinase ("CK"); electrolytes (including potassium); lactic acid; myoglobin; pH; respiration; heart rate, rhythm, capture; stress hormones or other blochemical neuromodulators (e.g., catecholamines). Therefore, reasonable efforts should be made to minimize the number of ECD exposures and resulting physiologic and metabolic effects. In human studies of electrical discharge from a single ECD of up to 15 seconds, the effects on acidosis, CK, electrolytes, stress hormones, and vital signs have been comparable to or less than changes expected from physical exertion similar to struggling, resistance, fighting, fleeing, or from the application of some other force tools or techniques. Adverse physiologic or metabolic effects may increase risk of death or serious injury.

Physiologically or Melabolically Compromised Persons. Law enforcement personnel are called upon to deal with individuals in crisis who are often physiologically or metabolically compromised and may be susceptible to arrestrelated death ("ARD"). The factors that may increase susceptibility for an ARD have not been fully characterized but may include; a hypersympathetic state, autonomic dysregulation, capture myopathy, hyperthermia, altered electrolytes, severe acidosis, cardiac arrest, drug or alcohol effects (toxic withdrawal or sensitization to arrhythmias), atterations in brain function (anitated or excited delirium), cardiac disease, pulmonary disease, sickle cell disease, and other pathologic conditions. These risks may exist prior to, during, or after law enforcement intervention or ECD use, and the subject may already be at risk of death or serious injury as a result of pre-existing conditions, individual susceptibility, or other factors. In a physiologically or metabolically compromised person any physiologic or metabolic change may

cause or contribute to death or serious injury.

Higher Risk Populations. ECD use on a pregnant, infirm, elderly, small child, or low body-mass index ("BMI") person could increase the risk of death or serious injury. ECD use has not been scientifically tested on these populations. The ECD should not be used on members of these populations unless the situation justifies possible higher risk of death or serious injury.

Muscle Contraction or Strain-Related Injury. ECDs can cause strong or moderate muscle contractions that may result in physical exertion, athletic, or sporttype injury, including, but not limited to, injuries such as: hernia rupture, dislocation, tear, or other injury to soft tissue, organ, muscle, tendon, ligament, nerve, bone, or joint; or injury or damage associated with or to orthopedic or other hardware. Fracture to bone, including compression fracture to vertebrae, may occur. These injuries may be more serious and more likely to occur in people with pre-existing injuries, orthopedic hardware, conditions or special susceptibilities, which include but are not limited to, known or unknown; pregnancy; osteopenia; osteoporosis; spinal injury; or previous muscle, disc, ligament, joint, bone, or tendon damage or surgery. Such injuries may also occur when a person reacts to the ECD deployment or discharge by making a rapid movement.

Seizure. Repetitive stimuli (e.g., flashing light or electrical stimuli) can induce seizure in some people. This risk may be increased in a person with a seizure history or if electrical stimuli pass through the head area. This may also result in a person falling with a possible secondary injury.

Stress and Pain, The ECD can cause temporary discomfort and pain which may result in stress, panic, anger, rage, or startle which may be injurious to some people and may cause adverse changes in blood chemistry. Additionally, anticipation of ECD exposure can cause stress, trepidation, panic, startle, or fear, which may also be injurious to some people.

Neurocardiogenic Response (Fainting). A person may experience an exaggerated response to an ECD exposure, or threatened exposure, which may result in a person fainting or falling with possible secondary injury.

Incapacitation, Falling, and Startle Hazard. ECD use may cause muscular confraction, Neuro Muscular Incapacitation (NMI), startling, and falling, which could result in death or serious injury.

SAFETY INFORMATION: EGD DEPLOYMENT AND USE.

Minimize Repeated, Continuous, or Simultaneous Exposures. Reasonable efforts should be made to minimize the number of ECD exposures. ECD users should use the lowest number of ECD exposures that are objectively reasonable to accomplish lawful objectives and should reassess the subject's behaviors, reactions, and resistance level before initiating or continuing the exposure.

Sensitive Body Part Hazard. When possible, avoid intentionally targeting the ECD on sensitive areas of the body such as the head, throat, chest/breast, or known preexisting injury areas without legal justification. The preferred target areas are below the neck area for back shots and the lower center mass (below chest) for front shots. The preferred target areas increase dart-to-heart safety margin distance.

Drive-Stun Mode is Usually Pain Compliance Only. The use of a handheld ECD in drive-stun mode is painful, but also is generally temporary, localized, and does not cause NMI.

SAFETY INFORMATION: PROBE OR ELECTRODE INJURY OR INFECTION.

Eye Injury Hazard. If a TASER probe, electrode, or electrical discharge contacts or comes into close proximity to an eye it could result in serious injury, including permanent vision loss. DO NOT intentionally aim an ECD at the eye of a person or animal without justification.

LASER light could result in serious eye injury. The ECD uses a LASER as a targeting aid. Avoid intentionally aiming the LASER at the eye of a person or animal without justification,

Probe or Electrode Injury or Infection Hazard. ECD use may cause a mark, burn, scar, penetration, other skin, or lissue damage or infection. Provide First Ald and medical care as needed.

Scarring. Use of an ECD may cause Irritation, puncture, mark, abrasion, rash, burn, keloid, or other scarring that may be permanent. This risk may be increased when using the M26 or X26 ECD in drive-stun mode with the cartridge removed or the X3 or X2 ECD-in drive-stun mode due to the multiple sets of electrical contacts. The nature and severity of these effects depends on numerous factors including the area of exposure and method of application, individual susceptibility, and other circumstances surrounding ECD use, exposure, and after care.

Penetration Injury. The TASER probe has a small dart point which may cause a

This document does NOT contain all of the current product warnings. The most current product warnings

are on www.TASER.com.

^{&#}x27;A Certified TASER Instructor possesses and maintains a current TASER Instructor certification for the specific product model they are leaching, demonstrating, or using and is required to be fully compilant with YASER's most current training requirements and materials.

VERSION 18 TASER® X26 Conducted Electrical Weapon (CEW) Recertification Test

Name: WAL	IACE <	JENSE	Se	erial Number: ၂	1462		
Training Date:	2/14	2013	Location; _	Richmond	FIRETI	amning	CENTER-

- 1. In deploying a CEW, the law enforcement officer should:
 - (a) Use the least number of CEW discharges to accomplish lawful objectives
 - b) Keep pulling the trigger until the subject submits
 - Hold the trigger back (continuous CEW discharge) as long as it takes until the person submits to the officer's commands
 - d) Use the CEW as a torture device to gain the subject's complete compliance
- 2. Officers using a CEW are expected to know, understand, and adhere to:
 - a) The current law in the officer's jurisdiction
 - b) The officer's department policies on use of force and CEWs
 - c) TASER's current training program
 - ,d) TASER's current CEW warnings, instructions, and information
 - (e) All of the above
- When deploying a CEW, sensitive CEW target areas of the body to be avoided when practicable include:
 - a) Head
 - b) Throat
 - c) Chest/breast
 - d) Known pre-existing injury areas
 - (e) All of the above
- 4. The preferred target areas for CEW deployment are:
 - a) Lower center mass (below chest) and legs for front shots
 - b) Below the neck area for back shots
 - c) Anywhere on the subject's body
 - √d)) a and b

- 5. A CEW application on a subject can cause physiologic or metabolic effects, including, but not limited to, changes in:
 - a) Acidosis
 - b) Heart rate and rhythm
 - c) pH
 - d) Respiration
 - e). Stress hormones or other biochemical neuromodulators (e.g., catecholamines).
 - (f) All of the above
- 6. The risk (or probability) of a CEW causing or contributing to a subject's cardiac arrest is:
 - a) Zero
 - b) Very high
 - c) High
 - d) Higher than the risk of death or serious injury from a firearm
 - (e) Very low
- 7. As with any use of force tool or technique used by an officer:
 - a) Any use of force has a risk of death or serious body harm
 - b) The lower the number of force applications to accomplish lawful objectives the better
 - c) Nothing works 100 percent of the time and contingencies should be considered.
 - d) The use of force must be in compliance with appropriate legal and policy standards and requirements
 - (rè) All of the above
- 8. The proper term to describe TASER CEW is:
 - a) Convenient Electrical Weapon
 - b) Compact Energy Weapon
 - (c) Conducted Electrical Weapon
 - d) None of the Above
- 9. Firing the probes into the subject, even at close or point blank range, is often a better option than a drive stun with the cartridge removed because;
 - a) It allows the person deploying the CEW to disengage and still deliver the effects of the CEW
 - b) It allows the person deploying the CEW to drive stun away from the probes with the cartridge still attached and increase the effects if needed
 - c) A drive stun with a cartridge removed will usually result in more significant signature" marks than a probe deployment
 - (d) All of the above
- 10. A drive stun is sometimes not very effective because:
 - a) It is usually difficult to maintain contact with a combative suspect
 - The spread of the contact points on the suspect is generally not large enough to cause NMI
 - A pressure point application on a combative subject may be difficult to achieve
 - d) All of the above
- 11. The term used for describing the incapacitating effects of a TASER CEW is;
 - a) Electro-muscular disruption (EMD)
 - b) Electro-muscular incapacitation (EMI)
 - c) Neuro-muscular disruption (NMD)
 - (d) Neuro-muscular incapacitation (NMI)

- 12. When a violent subject is incapacitated by the effects of the TASER CEW and it is reasonably safe to do so, cover officer(s) should attempt to control/cuff the subject under power. Doing so may:
 - a) Reduce the need for additional cycles
 - b) Reduce the likelihood the subject will roll during the cycle
 - c) Reduce the potential of injury to the officer(s) while the subject is incapacitated during the cycle
 - d) All of the above
- 13. When deploying probes to the front of the body, the TASER CEW should generally be aimed:
 - a) At the face
 - (b)) So as to split the hemispheres (the beltline)
 - c) At the throat
 - d) At the chest
- 14. The standard cycle for the TASER X26 CEW if the trigger is pulled and released is:
 - a) 10 seconds
 - (b) 5 seconds
 - c) 4 seconds
 - d) The cycle always stops as soon as the trigger is released
- 15. A daily spark test on the TASER X26 CEW is recommended to:
 - (a) Ensure the CEW is sparking
 - b) Create muscle memory
 - c) Practice drawing and holstering the CEW
 - d) Teach proper CEW safety
- 16. Targeting the back is usually preferable because:
 - a) The back of the body has larger muscles
 - b) Reduced risk of hitting a sensitive body part
 - c) Surprise factor
 - (d) All of the above
- 17. Examples of subjects who are at an elevated risk from a CEW exposure include:
 - a) Running subjects
 - b) Subjects in elevated positions
 - c) Subjects in a flammable environment
 - (বাঁ) `All of the above
- 18. Which of the following is a warning sign that a subject might be at risk for an arrest related death:
 - a) Bizarre or violent behavior
 - b) Disrobing
 - (c) Unusual strength and/or endurance
 - (d) All of the above

Richmond Police Department ECD Guidelines

20. Officers should hold both a firearm and the Taser at the same time to improve officer

19. Officers carrying the Taser should perform a spark test on the unit once a week.

a) True
(b) False

	safety. a) True b) False
. 21.	A verbal warning of the intended use of the Taser should precede its application when practicable and when it does not endanger the safety of officers. (a) True b) False
22.	The fact that a verbal or other warning was given or the reasons it was not given shall be documented in the related report by the officer deploying the Taser. (a) True b) False
23.	CEW s shall only be used against persons who are physically resisting, exhibiting active aggression, or to prevent individuals from harming themselves. (a) True b) False
24.	Only one officer shall activate a CEW against a person at a time. a) True b) False
25.	When activating a CEW, an officer shall conduct a "double-tap" to ensure the effectiveness of the deployment. a) True (b) False
26.	CEW deployment against a subject is limited to three successful contacts and cycles. (a) True b) False
. 27.	A fleeing subject can be the sole justification for use of a CEW without considering the severity of offense. a) True b) False

. 30	CEWs shall not be used on children who appear to be under the age of 16 years. a) True (b) False
31	a) True (b) False
32	CEWs can be used against suspects who are in physical control of a vehicle in motion, or a vehicle that might be placed in motion. a) True
33.	CEWs shall not be used in the presence of known combustible vapors and liquids, or other flammable substances such alcohol-based O.C. spray. True b) False
34.	Officers are not authorized to carry department Tasers while off-duty. (a) True b) False
35.	ECDs must be maintained in a holster on the officer's support side to avoid the accidental drawing/firing of an officer's sidearm. (a) True (b) False
36.	It shall be mandatory for all trained uniformed officers at the rank of Sergeant and below to carry an ECD while on street duty. (a) True (b) False
37.	A supervisor must respond to all incident scenes where an ECD was activated and conduct an administrative investigation. True b) False
,	5

28. CEWs shall not generally be used against obviously pregnant women, elderly persons, children, and visibly frail persons unless exigent circumstances exist that present a high

29. CEWs can be used to facilitate the forced withdrawal of blood evidence from DUI

level of danger to the officer or others.

(a) True b) False

VERSION 14 TASER® X26 User Certification Test

PRINT LEGIBLY AND CLEARLY PLEASE!

Name: WALLAUE JENCEN	Dept. / Company: PUMMOND PD
Rank: POLICE OFFICER	Email: JENGENWE FIMMONDED. NET
Phone: 510 233 1214	Fax:
Address: 1701 REGATTA ZWO	RICHMOND OF 94BOY
Training Date: 10 9 08 Location:	PLUMMBNA PAL BUILDING

- What do the green blast doors indicate on a TASER cartridge?
 - a) 21 ft of line, extended probe needle, regular probe weight

 - 25 ft of line, regular probe needle, heavier probe weight 25 ft of line, extended probe needle, heavier probe weight
 - 21 ft of line, regular probe needle, regular probe weight
- 2. Electricity follows;
 - a) The path of most resistance
 - b) From top to bottom following gravity
 - The path of least resistance between the probes
 - d) Or flows to any metal in contact
- If you see a "P" on the CID of a TASER X26;
 - a) Immediately pull the DPM out
 - b) Turn on the device and spark test it
 - pull DPM out during boot up sequence
 - Leave it alone until after it has finished the boot up sequence
- According to TASER V14, the proper term to describe the TASER Devices is:
 - a) Propelled Energy Device
 - b) Conducted Energy Weapon
 - Electronic Control Device
 - Extended Stun Device

	5. The 15, 21, and 25 foot cartridges propel the probes at a downward angle: a), 7 degree (b) 8 degree c) 4 degree d) 21 degree
	 6. When left in the armed position, the TASER CAM will record audio/video for until powering down to sleep mode: a) 90 minutes b) 30 minutes c) 45 minutes 20 minutes
	 7. Firing the probes into the body of a subject even at close or point blank range is usually a better option than a drive stun with the cartridge removed because; a) It allows the person deploying the ECD to disengage and still deliver the affects of the ECD b) It allows the person deploying the ECD to drive stun away from the probes with the cartridge still attached and increase the affects if needed c) A drive stun with a cartridge removed will usually result in more significant "signature" marks than a probe deployment d) All of the above
	8. A drive stun with the cartridge removed is sometimes not very effective because: a) It is usually difficult to maintain contact with a combative suspect. b) The spread of the contact points on the suspect is generally not large enough to cause NMI. c) A pressure point application on a combative subject may be difficult to achieve. d) All of the above
	9. The human nervous system has three main components that work together as a system. Which of the three components functions to send signals to the brain about such things as relative body positioning and pain? a) Central nervous system b) Motor nervous system c) Sensory nervous system d) Century nervous system
	10. The two phases of Shaped pulse technology are: ARU 611M
•	11. What nerves are responsible for voluntary skeletal muscle movement: พอรอน ฟิธีโปเฟง ชินรายฟ
· Amment	

12. According to the TASER V14 training the term used for describing the incapacitating affects of the TASER ECD is: a) Electro-muscular disruption (EMD) b) Electro-muscular incapacitation (EMI) c) Neuro-muscular disruption (NMD) Neuro-muscular incapacitation (NMI) 13. Which part of the human nervous system functions as the Command Center? a) Nerve Expressway b) Motor nervous system c) Sensory nervous system Brain and Spinal cord 14. The TASER X26 ECD operates at a peak open gap 50,000 volts. A normal electrical wall outlet in the USA operates at about 110 volts and can be dangerous to a human. What is the main reason the electrical output of the TASER ECD is safer? (a) Because the amps of the ECD are extremely low b) Because the amps are extremely high c) Because the wall outlet is pulsed energy d) Because the joule output of the ECD is 300 times greater 15. While a violent subject is incapacitated by the affects of the TASER ECD and it is reasonably safe to do so, cover officer(s) should attempt to control/cuff the subject under power. Doing so may: a) Reduce the need for additional cycles b) Reduce the likelihood the subject will roll during the cycle c) Reduce the potential of injury to the officer(s) because the subject is incapacitated only during the cycle All of the above 16. The probes are propelled from the TASER cartridge by: a) Primer propellant b) Compressed Argon gas Compressed Nitrogen Compressed blended gas (proprietary secret blend) 17. The TASER X26 high peak arcing voltage of 50,000 volts only occurs when the arc is required to jump a gap such as between the electrodes on the end of the X26, or when a probe lodges in loose clothing and must jump the gap to the body. When traveling across the human body, the peak voltage drops to approximately; a) 20,000 b) 10,000 5,000 1,200 18. During TASER voluntary exposures which of the following are required safety rules? a) Always use two spotters when volunteer is standing Spotters must hold volunteers under the armpit to avoid twisting their shoulder

The volunteer may be held up or carefully lowered to the ground

All of the above

 a) Both probes make contact for the full 5 seconds. b) Less chance of multiple "signature marks" on the suspect. c) NMI can be achieved if the a drive stun is applied over 4" from the darts All of the above 	
20. The TASER X26 NMI Weapon affects the: a) Motor nervous system only b) Sensory nervous system only Sensory and motor nervous systems d) Cardiac system	
 21. The "TASER-Wave" electronic signals of the TASER X26 are effective: a) Through up to two inches of clothing. b) Through some types soft body armor. c) Through lightweight clothing. d) All of the above. 	
 When using the TASER X26 with chemical sprays, the following must be considered a) Type of propellant and base of chemical or pepper spray (for flammability). b) If the threat has been sprayed in the eyes. c) Whether the chemical spray was O.C. or C.S. All of the above. 	
 23. The TASER X26 will store what information for each trigger pull? a) Time, Date, Cartridge Number b) Time, Date, Duration, Body Temperature c) Date, Duration, Body Temperature, Temperature Time, Date, Duration, Battery Life, Temperature 	
24. The 21 foot standard cartridge has: a) Yellow blast doors Silver blast doors Green blast doors d) Orange blast doors e) Blue blast doors	
25. When deploying probes, the TASER should generally be aimed at: a) Face b) Center of body mass c) The throat d) The head	

19. Why is a cartridge deployment, even to close range, more desirable than a drive stun?

TASER® X26 NOMENCLATURE Identify the parts of the TASER X26

TASER TRAINING TEST

· 1. TASERS or Conducted Energy Devices (CED) may be used in which of the following situations (mark all that apply):

Against persons who are actively resisting

Against persons who are exmoning active aggression

To prevent persons from harming themselves

Against a passive suspect

- 2. How many officers may activate a CED against a person at any one time?
 - A. One
 - B. Two
 - C. As many as it takes
- How many activations of the CED may an officer use to take a subject into custody?

One

Two

Minimum activations necessary to take the subject into custody

4. Can multiple activations of the CED and/or the continuous cycling of a CED increase the risk of death or serious injury?

B. False

5. Can the fact that a subject is fleeing from the police be the sole justification to use a CED?

A. True

B) False

6. CEDs can be used against pregnant women, elderly persons, young children, and frail persons?

A. True

(B) False
7. A CED can be used on a handcuffed person.
A. True B) False
(mark all that apply):
 A. When a person is on a high ledge B. When a person is in physical control of a vehicle C. When a person is around flammable substances None of the above
9. The optimum range for use of the TASER is to
10. CEDs can be used off duty if the officer can justify the need?
A. True B. False
11. Officers shall avoid firing probes at a subject's UFAD, and genitalia.
12. Subjects that have been exposed to CED activation do not need to receive a medical evaluation prior to booking if they do not have any medical complaints.
A. True B. False
13. Officers may decide whether they want to carry their TASER on their support side or on the same side as their primary weapon.
A. True B. False
14. Whenever possible, officers shall warn the suspect and their cover officers prior to activation of the CED.

15. Verbal commands do not need to be given by the TASER operator so the subject will know what he/she needs to do in order to comply and avoid further cycles of stimulation.

16. Once a subject has been taken into custody, restrained, and searched, what position should he/she be positioned in to assist breathing?

IN A POSITION THAT DOES NOT IMPAIR RESPIRATION

17. A supervisor does not need to respond to all incidents scenes where a CED has been activated.

A. True

(B) False

18. A supervisor will conduct an initial review of CED activation and complete the Supervisor's USE of FORES.

19. A Use-of-force report does not need to be completed if the activation was only an accidental discharge.

A. True
(B) False

20. Every substantial investigation into CED use should include which of the following (mark all that apply):

Location and interview of witnesses

Photographs of subject and officer injuries

Photographs of cartridges/probes

Collection of CED cartridges, probes, confetti ID tags

(F). Copies of device data download	
21 In all cases, the CED download data is always deemed reliable	e.
A. True B. False	

a CED activation when which of the following factors are involved (mark all that apply):

A subject experiences death or serious injury

A person experiences prolonged CED activation

The CED appears to have been used in a punitive or abusive manner.

There appears to be a substantial deviation from training

A person in an at-risk category has been subjected to activation

F. The CED activation resulted in the arrest of the suspect

23. The Department's Use of Force Committee will conduct random audits of the CED data downloads and reconcile use-of-force reports with recorded activations.

A True B. False

24. Officers may carry a TASER even if they have not attended the initial training program.

25. Any officer who wishes to carry must be exposed to CED activation.

26. Deployment of the CED against aggressive animals is not allowed.

A. True B False

Richmond Police Department

MEMORANDUM

TO:

Officer Wallace Jensen

FROM:

Chris Magnus

Chief of Police

DATE:

March 6, 2009

SUBJECT:

Carbine Purchase

Please be advised that you are required to provide copies of your assault weapon(s) registration to the Office of the Chief of Police within two (2) weeks of today's date. You cannot attend Departmental training until this paperwork is received. In addition, you are not authorized to deploy this weapon until you have successfully completed the Department's carbine training and only in the course and scope of your employment with the Richmond Police Department.

Should you fail to complete the required Departmental training, or are deselected from the Carbine Program, or cease employment with the Richmond Police Department, you are required to lawfully dispose of this assault weapon pursuant to current law and California Department of Justice regulations.

Group Homes and Facility Care Providers

1. Purpose:

It is the purpose of RPD Youth Service Division to build a continuum relationship with the Department of Social Service and other supporting agencies that deal with Group homes and foster care service in the City of Richmond.

2. Goal:

The goal of the RPD Youth Service Division is to help prevent unsafe condition and developments within the homes and community that group homes and foster care facilities serve. It is also the goal of the Richmond Police Department to offer outreach programs, teen services, chaplain service and other much needed resources for the staff and youth.

3. Solutions:

Richmond Police Department and Department of Social Service must form an alliance between both groups with similar purpose and goals. Both departments have to come up with a preventable measure that could benefit not just the community but those who enter the community.

4. Location:

Below was a list of Group homes and Foster Care homes in Richmond:

- o 5 Group Homes
- o 1 Small Family Home
- o 62.Foster Families

It was brought to my attention, that majority of our group homes and foster care home/facilities are in collaboration with the Alameda Department of Social Service,

5. Resources:

CONTRA COSTA COUNTY Office of the District Attorney

Robert J. Kochly District Attorney

December 19, 2011

,

Training bulletins are designed to provide legal updates, investigative tips, and information helpful to Richmond Police Officers. Contact me it you have any questions\comments about a bulletin or suggestions for future bulletins.

LOITERING FOR THE PURPOSE OF COMMITING PROSTITUTION

Prostitution, a vice once called "the oldest profession in the world", is still alive in the City of Richmond. According to patrol, prostitutes still loiter and attempt to ply their illegal trade along the same predictable streets within our city. One tool that we can use to deter prostitution is Penal Code section 653.22, loitering with the intent to commit prostitution. The purpose of this memo is to help patrol officers put together 653.22 cases that can be filed and prosecuted successfully.

THE ELEMENTS OF THE CRIME:

The best way to break down a criminal statute to learn what you need to prove for a successful filing and prosecution is to look at the jury instruction for that crime. The jury instruction for Penal Code section 653.22 reads as follows:

"To prove that the defendant is guilty of this crime, the People must prove that:

- 1. The defendant delayed or lingered in a public place;
- 2. When the defendant did so, he\she did not have a lawful purpose for being there; AND
- 3. When the defendant did so, he\she intended to commit prostitution.

In order to break this instruction down further, I believe it would be helpful to examine each element separately to determine what evidence is needed to prove that particular element. Of course, the evidence needed to prove each element overlaps with the other elements needed to prove guilt of the crime.

THE DEFENDANT DELAYED OR LINGERED IN A PUBLIC PLACE

This is a fairly simple element to prove. All you would need to articulate is that you observed the suspect in the same spot or area over a period of time. This period of time in most cases should not be brief. As a practical matter, a case of loitering from prosecution is much stronger if you have observed the same suspect in the area during your shift prior to contact or on other occasions before the date of arrest. Be careful to

note when you observed your suspect. Did you observe the suspect several times on your shift while driving down 23d Street for example?

WHEN THE DEFENDANT DID SO, HE\SHE DID NOT HAVE A LAWFUL PURPOSE FOR BEING THERE

This element is mostly fied in with the third element which requires you to prove the intent, or state of mind of your suspect. Since you have to prove that the suspect, while loitering, had the specific intent to commit prostitution, you are proving that the suspect loiterer did not have a lawful purpose for being where you observed them.

As a practical matter, it may be helpful to stop and contact suspected prostitutes to warn them that loitering for the purpose of prostitution is illegal. Many prostitutes may even admit at that time that they came to Richmond to engage in prostitution. So, when you see them in the same area loitering on a subsequent occasion, it is much easier to prove that they had no lawful purpose for being in the same area. This approach also helps to prove the third and most difficult element which is the specific intent to commit prostitution.

WHEN THE DEFENDANT DID SO (LOITERED), HEISHE INTENDED TO COMMIT PROSTITUTION

Loitering for the purpose of committing prostitution is a specific intent crime. That means that the prosecution has to prove that the suspect had a specific purpose in mind when committing a criminal act. To prove the crime of murder, the prosecution needs to prove that the killer acted with specific intent, the intent to kill. Here we need to prove that the prostitute loitered with the specific intent to commit prostitution.

Specific intent can be proven in two ways. The first is by direct evidence. A suspect that tells another that he wants to kill the victim, and then kills the victim, has by direct evidence, through his own words, given evidence of his intent to kill the victim. Here, if a prostitute tells you that he\she is loitering out in the street for the purpose of committing prostitution, no other evidence of intent is needed to prove the crime.

The second way to prove specific intent is by circumstantial evidence. If a suspect shoots his victim in the lower leg, that fact alone cannot establish a specific intent to kill. On the other hand, if the same suspect instead shoots his victim in the head at close range, that is pretty powerful evidence standing alone that the suspect intended to kill his victim.

The Penal Code section for loitering for the purpose of prostitution lists several factors which can be considered by you and by a jury to determine if someone is loitering for the purpose of prostitution. If you are going to attempt to make an arrest for PC 653.22, you should be aware of these factors and how to apply them. These factors are circumstantial evidence of the actual intent of the loiterer. The more factors you can point to, the better the case will be. These factors are listed as follows:

1. Did the suspect repeatedly beckon to, stop, engage in conversation with, or attempt to stop or engage in conversation with passersby, indicative of soliciting for prostitution?

- 2. Did the suspect repeatedly stop or attempt to stop motor vehicles by hailing the drivers, waving arms, or making any other bodily gestures, or engage or attempt to engage the drivers or passengers of the motor vehicle in conversation indicative of soliciting for prostitution?
- 3. Has the suspect been convicted of violating this section, subdivision (a) 0r (b) of section 647, or any other offense relating to prostitution within five years?
- 4. Did the suspect circle in a car and attempt contact pedestrians for the purpose of soliciting prostitution?

What is important to note at the start is that this list is not exhaustive. The list is merely an example of the types of conduct normally associated with a prostitute who is attempting to solicit customers for the purpose of committing an act or acts of prostitution. What counts most is your experience as a police officer and your knowledge of how prostitutes normally conduct business in your jurisdiction. As a prosecutor reading these reports and deciding what can be filed and prosecuted, I would look for the following:

Is the officer familiar with the area where the observations were made? Is this an area that is known for prostitution? Be ready to write in your report how it is that you know that this area is a known prostitution area. This knowledge can come from previous arrests you or other officers made in that area. This knowledge can come from lineup training or talking with other officers, suspects, or citizens that live or work in that area. Further, this knowledge can also come from your own observations from patrolling in that area for a period of time.

Is the officer familiar with how prostitutes solicit in the area where the loitering occurred? Is it common to flag down cars in this area? Take care to write down what it was about this suspect that attracted your attention to them. This may include the manner in which the suspect is dressed or the suspect's actions as described above. After reading the report there should be no other explanation but that the suspect was out in the street, hanging around, for the purpose of soliciting or committing prostitution.

Has the officer had previous contacts with the suspect? This can come from a previous arrest or a consensual encounter that you had with the suspect. You may know this suspect because a fellow officer arrested them or contacted them in the past. Any information that you have that associates the suspect with prostitution should be written into the report to support probable cause for the arrest as well as circumstantial evidence of intent.

PROSECUTION STRATEGY

As a prosecutor I believe that every prosecution should have a purpose. Even though Penal Code section 653.22 crimes may seem to be low on the priority list, if used effectively, can help to reduce prostitution in a given location. What I would ask is that you forward all your 653.22 cases to me as misdemeanor filing packets. I will make the filing decision on these cases and forward them to the district attorney's office for processing. After talking with several officers, it appears the best course of action

PROTECTIVE HOOD – ONE SIZE FITS All

Read Instructions Prior to Use

WARRING: IMPROPER USE OF THE TRANSPORT HOOD MAY CAUSE INJURY OR DEATH

The Tranzport Hood" is a temporary protective hood for use on those persons where a risk of exposure to infectious disease is present. If used properly, the Tranzport Hood** can reduce the risk of the wearer transmitting fulls (salive and mucous) from the facial area, as by spitting, sneezing or coughing. Improper use may result in serious injury or death due to asphyxiation, suffocation or drowning in ones own fuids

CONDITIONS FOR USE:

Do NOT use this product unless:

- Prisoner is under control and restrained
- Wearer must be under constant visual supervision and should NEVER
- be left unattended. DO NOT USE on chyone that is vomiting, having difficulty breathing; or is bleeding profusely from the area around the mouth or nose.
- Remove prisoner's lewelry and eyeweer before application.
- If there is difficulty applying due to large size head, discontinue use.

INSTRUCTIONS FOR USE:

- 1. Open and remove the Tranzport Hond".
- Open and remove the dood over the head of the person with the mesh fabric positioned just below the eyes to allow the person to see.
- For the best ft, place the center ejastic under the nose and over the ears.
 For better protection, the elastic may be placed above the nostrils.
- Securistration below.

 Carefully push the plastic Secure-Lock Tab down toward the top of the head while holding the top of the mesh-fabric. This should take the slack out of the top and help secure the Transport Hood* in position.

 DONOT push solightly a stobe uncomfortable or impair the vision of the wearer. Seeillustrationbelow,

Plastic Secure-Lack Yab

The Tranzport Bood" is designed to be used on a single person, and should never be reused. Remove when destination is reached or the prisoner is to be left unattended, or as advised by a superior, and safely discard.

The Tranzport Hood™ trademark is used under license to NIK Public Safety, Inc. and is protected by U.S. Patent #5,664,262.

Subject: TASER Training

Sergeant Jones,

the listed personnel participated in scheduled TASER training on October 9, 2008. The training took place at the Richmond PAL Building from 0800 to 1700 hours. The training was in accordance with TASER's 8 hour User Certification Course guidelines:

- Officer J. Tyner
- Officer T. Jackson
- Officer W. Jensen
- Officer I. Reid
- Officer Z, Rong
- Officer T. Saephanh

The instructors, Corporal A. Nunley & Detective J. Tong, ensured user participation then administered the written tests and practical application of the TASER device.

Please place a copy of this electronic mail in the training files of the listed officers along with their written and practical application tests.

Sergeant Jim Jenkins Richmond Police Department 510-620-6650 office 510-619-6486 cellular phone jienkins@richmondpd.net

"All that is necessary for evil to triumph is for good people to do nothing."

RICHMOND POLICE DEPARTMENT

Shooting Policy

302.1 PURPOSE & SCOPE

The purpose of the Shooting Policy is to establish policy and procedures for the use and reporting of incidents involving the discharge of firearms. This policy is for internal use only and does not increase the Department's and/or an Officer's civil or criminal liability in any way. Violations of this policy can only form the basis for Departmental administrative actions.

302.11 POLICY

It is the policy of this Department to resort to the use of a firearm under law when it reasonably appears to be necessary, and generally:

- (a) An Officer may use deadly force to protect himself or herself or others from what he/she reasonably believes would be an immediate threat of death or serious bodily injury.
- (b) An Officer may use deadly force to effect the arrest or prevent the escape of a suspected felon, where the Officer has reasonable cause to believe the suspect has committed, or intends to commit, a felony involving inflicting serious bodily injury or death.
- (c) To stop a dangerous animal that he/she believes is a threat to himself/herself or others.
- (d) With the approval of a Supervisor, an Officer may kill an animal that is so badly injured that human compassion requires its removal from further suffering and where other dispositions are Impractical.
- (e) For target practice at an approved range.

302.12 WARNING SHOTS

Generally, warning shots or shots fired for the purpose of summoning aid, are discouraged.

302.13 MOVING VEHICLES

Shots fired at, or from, a moving vehicle are generally discouraged. This is not intended to restrict an Officer's right to use deadly force directed at the operator of a vehicle when it is reasonably perceived the vehicle is being used as a weapon against the Officer or others.

302,14 REPORT OF WEAPON DISCHARGE

Any employee who discharges his/her weapon intentionally, or accidentally, on or off duty, shall notify the Watch Commander as soon as possible. The notification shall be made whether the employee is in, or outside, the city limits of Richmond. The notification is not required when the employee intentionally discharges a firearm while at a range facility, or when an off duty employee intentionally discharges a firearm while engaged in a lawful recreational activity, such as hunting or target practice.

RICHWOND POLICE DEPARTMENT

302.15 WEAPONS DISCHARGE REVIEW

- (a) Every firearms discharge, except during training or recreational use (as outlined above in § 302.14), shall be administratively reviewed as set forth in § 312 of this manual.
- (b) The Investigative Services Bureau will generally investigate all Officer-involved shootings regardless of injury. At the discretion of the on-duty Watch Commander, an on-duty Supervisor may conduct the investigation. Investigations by Supervisors may include dispatch of animals or a negligent discharge without injuries.
- (c) If an injury or death occurs as a result of an Officer discharging his/her weapon, the provisions of § 304, Officer Involved Shooting Protocol, shall be invoked and followed.

PAUL CAPPITELLI XECUTIVE DIRECTOR

Training Division

Richmond Police Department 2014 PERISHABLE SKILLS PROGRAM (PSP) I-TACTICAL FIREARMS TRAINING (4 hours)

Course Goals

The course will provide the trainee with topics of tactical firearms and lethal force training required in the POST Perishable Skills Training Program (PSP). The trainee will develop the necessary tactical firearms knowledge and skills to survive and win a lethal force encounter.

The course consists of a hands-on/ practical skills firearms training for Richmond Police Department Officers.

Tactical Firearms:

Topics/ Exercises

- 1) Basic tactical firearms situations, judgment and decision making exercises
- 2) Class exercises/student evaluation/testing
- 3) Safety guidelines and orientation
- 4) Sight alignment, trigger control, accuracy
- 5) Target recognition and analysis
- 6) Weapons clearing
- 7) Live fire tactical scenario(s)
- 8) Department policy
- 9) Use of force considerations
- 10) Moral obligations

Course Objectives

Trainees will:

- Demonstrate knowledge of their individual Department Use of Force/ Firearms policy
- 2) Demonstrate a minimum standard of tactical firearms proficiency with every technique, exercise, and course-of-fire, to include:
 - A) Judgment and decision making
 - B) Weapons safety
 - C) Basic presentation techniques
 - D) Fundamentals of shooting
 - E) Target/Non-Target identification
 - F) Speed, accuracy and effectiveness under stress and movement conditions

PSP Tactical Firearms Training

Richmond Police Department

Training Division

G) Shot placement: stopping power and penetration

Equipment Needs

- 1) 175 rounds per student
- 2) 3 targets per student
- 3) Non-Threat Props
- 4) 25 yard shooting range
- 5) Barricades
- 6) First Aid Kit
- 7) Class outline
- 8) Eye and Ear protection for each student
- 9) Each student shall wear their own ballistic protective vest
- 10) Minimum of 3 instructors
- 11) Maintenance supplies for targets, target backers etc.

Training Location

Chevron / HALO Range, Pt. Molate, Richmond, CA 94804

Training Dates

Lead Instructor

Sergeant Louie Tirona

Range Master/Primary Firearms Instructor

RPD Training Division

Associate Instructors

RPD Tactical Firearms and Marksmanship Training Unit

End of 4 hour PSP Course (Tactical Handgun)

II - TACTICAL SHOTGUN COURSE (4 hours)

Review: Shotgun Fundamentals (Lecture & Demonstration) 55 Min

- 1. Lecture
 - a. Nomenclature of the Remington 870 Shotgun
 - b. Types of Loading
 - 1. Duty
 - 2. Deficit
 - 3. Combat.

Break 10 Min

Richmond Police Department Training Division

PSP Tactical Firearms Training

Carry Methods 50 Min (admin, low ready, high ready, retention, on target – lecture, demo and student dry practice)	
Break	10 Min
Safety Manipulation (lecture, demo and student dry practice)	10 Min
Movement Positions (lecture, demo and student dry practice -Low Ready Walk, Shooting on the Move)	45 Min
Break	10 Min
Range Drills	65 Min
Course/Instructor Evaluations	10 Min
TOTAL	4. 5 Hours

<u>Richmond Police Department</u> Training Division

EXPANDED COURSE OUTLINE

I. INTRODUCTION/ ORIENTATION

- A. Introduction, Registration and Orientation
- B. Course Objectives/Overview, Exercises, Evaluation/testing
- C. Weapons, Range and Shooting Safety Rules. (Pre-range weapons unloading procedures and lunch/extended break reload/unload rules)

1. General Safety Rules

- a. All guns are always loaded
- b. Never allow the muzzle to cover anything you are not willing to destroy.
- c. Keep your finger off the trigger until your sights are aligned on target and you intend to shoot.
- d. Be sure of your target.

2. Range Safety Rules (Pistols)

- a. Once training starts the range will be considered a HOT RANGE. Which means pistols and magazines will be kept loaded with ammo (unless otherwise directed).
- b. Because it is a hot range, ALL pistols WILL remain in their holster, with holster retention devices in use, except when on the firing line under the supervision of the range masters and/or at a designated safe handling area.
- Officers will be allowed to administratively load their pistol magazines when off the firing line but they must keep their pistols holstered.

3. On the Firing Line Safety Rules

- a. Refer to General Safety Rules, keep all fireaims pointed down range.
- b. All malfunctions shall be handled by the officer. If they cannot fix the malfunction then (keeping the weapon pointed down range) they shall raise their off hand for range master assistance.
- c. Never draw a handgun from the holster on the range unless instructed to do so.
- d. Never leave your firing position unless cleared by the range master.
- e. Never go forward of the firing line unless instructed to do so.
- f. Never bend over to retrieve dropped articles (i.e., magazines, ammunition) on the firing line unless instructed to do so or cleared by the range master first.

Training Division

- g. If hot brass comes in contact with your skin, keep your weapon pointed down range, and holster. Once the weapon is safely holstered, you may take care of the hot brass. Notify the rangemaster of what you're doing.
- h. All students will wear eye & ear protection and bulletproof vests while on the firing line and/or in the immediate vicinity of the firing line.
- i. There will be no smoking, chewing tobacco, eating, or drinking on the firing line.
- i. Wash hands and face before leaving the range.

4. Range Commands

- a. LOAD and MAKE READY
 - a. Shooter will ensure eyes and ears are protected. Shooter will point muzzle in a safe direction and load or chamber check as necessary.
- b. FIRE COMMANDS
 - a. During the course of fire, the instructor will tell the class what the fire command will be.
- c. CHALLENGE
 - a. Shooter gives at least one command to disarm the threat (i.e., "Drop the gun!"), before firing.
- d. NO THREAT
 - a. Shooter conducts follow through and scanning on their own.
 - b. Shooter waits for direction.
- e. CEASE FIRE!
 - i. All shooters immediately;
 - 1. Stop firing
 - 2. Safely holster their weapon
 - 3. Listen for further direction

II. LETHAL FORCE OVERVIEW

- A. Legal/Moral/Ethical Issues involving Use of Force/Lethal Force
 - 1. Ensuring the use of force is justifiable under department policy and state law.
 - 2. Having been trained in firearms, police officers may be held to a higher standard regarding marksmanship.
 - a. You are responsible for every round you fire.
- B. Civil and Department Implications of Force/Lethal Force
 - 1. Civil law suit by suspect and/or family
 - 2. Internal Affairs investigation
 - 3. Police Commission
- C. Report writing and preliminary investigation

Training Division

- 1. Notes about your mindset at the time, suspects actions, how you felt, fear for your life or the life of others of imminent death or serious bodily injury ("Notes to Attorney").
- 2. Be articulate so that others will understand the degree of threat you felt.

III. USE of FORCE/LETHAL FORCE and FIREARMS POLICY

- A. Use of Force Options
 - 1. Lethal Force within the spectrum of force options
 - 2. Verbal, Hands, Less Lethal, Lethal Force spectrum
 - 3. Command presence
 - 4. Control holds
 - 5. O.C., Baton, CED, Pepperball
 - 6. Firearms
 - 7. Escalation/De-Escalation
 - a. Constant evaluation of the situation
 - b. Tactical response proportional to threat
- B. Department Policy Use of Force, Section 300
 - 1. In the necessary defense of themselves or in the defense of another person when the officer reasonably believes that an imminent danger of death or serious bodily injury exists.
 - 2. The officer has probable cause to believe the suspect has committed, or attempted to commit, a felony involving the use of, or threatened use of, force likely to cause serious bodily injury or death and the officer reasonably believes there is an imminent or potential risk of injury/death to any other person if the suspect is not apprehended.
 - 3. To stop a dangerous animal that poses an imminent risk of death or serious bodily injury to a person.
 - 4. At the firing range pursuant to all safety rules and regulations.
 - 5. Firearms shall NOT be discharged as a warning.

C. Supporting Case Law

- 1. Tennessee vs. Garner
 - a. Fleeing Felon Doctrine
 - i. The court held that deadly force may not be used to stop a fleeing felon UNLESS it is to stop the escape AND the officer has probable cause to believe that the suspect poses a significant threat of death or serious physical injury to the officer or others...or he has committed a crime involving the infliction or threatened infliction of serious physical harm and the ability to carry out that action or threat.
 - b. Deadly Force

Training Division

- i. Use of deadly force is limited to situation that threatened death or serious bodily injury to:

 - 1. 1st party- you the officer
 2. 2nd party- anyone else
 3. 3rd party- projected threat, what may happen SBI/Death if not stopped based on what officer knows at the time

2. Graham vs. Conner

- a. Objective Reasonableness
 - i. Use of force decision based on facts and circumstances known to the officer at the time the force was used.
 - ii. Officers state of mind will be taken into consideration, whether evil or good intentions. Factors weighed in determining objective reasonableness:
 - 1. Scope of intrusion (degree and extent of force used)
 - 2. Manner of intrusion (type of force used)
 - 3. Where intrusion occurred
 - 4. Need to perform official duties (what was the officer doing-on/off duty)
 - 5. Justification for intrusion (why was force being used)
 - 6. Facts and circumstances
 - 7. Severity of crime
 - 8. Did the suspect pose immediate threat to officer or others
 - 9. Did the suspect actively resist
 - 10. Did the suspect attempt to evade arrest by fleeing

IV. COMBAT COMMUNICATIONS

A. Purpose

- 1. To establish and maintain a department standardized set of verbal communication between officers during a tactical/combat firearms situation.
- 2. The terms used are designed so that critical firearms and tactical status is quickly communicated and easily understood.

B. The terms are:

1. "Loading"; when any type of weapon loading (Tactical, or Emergency) is done to the firearm.

Training Division

- 2. "Malfunction"; when any type of weapon malfunction has occurred and needs to be addressed with an immediate action drill.
- 3. "Moving"; when an officer is going to move from one location to another
- 4. "Covering"; communicated by an officer to acknowledge that they will be providing cover to another officer who is conducting a Loading, Moving, or Stoppage action.
- "I'm Up"; this command is given by the officer who was conducting a Loading, Moving, or Stoppage action to indicate to the Covering officer that they have completed their action and is back in the fight.

C. Class Instruction

- 1. After explaining the commands to the class inform the shooters they need to be utilizing these commands throughout the remainder of the class for muscle memory reinforcement.
- 2. For example, each time a shooter reloads their weapon they should be shouting "Loading". All other Shooters on the line should be responding with "Covering", etc.

Note: It is important to note that the dynamics of a gunfight affect the course of communication between officers. For example an officer calling "Malfunction" or "Loading" (Emergency and/ or Speed) who is actively engaged in a gunfight isn't going to have time to wait for a "Covering" acknowledgment from their fellow officer. Addressing the condition of their weapon is the priority. However, if there is a lull in the gunfight or there aren't any threats present and an officer wants to conduct a "Moving" or "Loading" (Tactical Reload) then time and circumstance may permit the officer to wait for the "Covering" acknowledgment. Officers will have to use the commands as they best apply to the circumstances at the time.

V. FUNDAMENTALS of SHOOTING

A. Shooting Platform

- 1. Stance
- a. Stable platform, Weaver stance vs. the Modern Isosceles
- b. Balanced, feet shoulder width apart (fighting stance)
- 2. Grip
- a. Firm two handed grip
- b. 360 degree grip coverage
- c. Proper placement of arms
- d. Thumbs forward, cant support wrist down

3. Sight Alignment

a. Front sight is vertically and horizontally centered between the rear sights

Training Division

- b. Focus on the front sight tip
- 4. Sight Picture
 - a. Placement of the Sight Alignment on the target where you want the round to impact
 - b. Target may be blurry
 - c. Rear sight may be blurry
 - d. Front sight is clear
- 5. Trigger Control
 - a. Smooth, steady press of the trigger rearward
 - b. After sear breaks and weapon fires,
 - c. Only bring the trigger forward until the sear resets
- B. Fire and Follow Through
 - 1. Maintain your sight picture on the sights after firing and reset trigger (note: a malfunction/stoppage may be indicated by the trigger not resetting)
 - 2. Follow the threat's movement down until it is determined the threat no longer presents an immediate danger (visual focus shift from sights to threat).
- C. Scan and Assess
 - 1. After the threat has been neutralized
 - 2. Scan and assess the surrounding area for any other danger before holstering

Note: During <u>Follow Through</u> weapon would be in single action and finger on trigger in order to quickly react to an ongoing threat. Once the addressed threat has been incapacitated, the shooter places the trigger finger straight along the weapon, the shooter will then <u>Scan and Assess</u> the area at the Combat Ready position. Once it is determined that there are no further threats, the shooter will de-cock or place the weapon on safe.

- VI. Accuracy, Trigger Control, Sight Alignment
 - A. Cold shot drill 5 yards, shooter will have two seconds to deliver one brain shot (performance measurement drill).
 - B. Failure Drill
 - 1. Two quick shots to the body
 - a. Upper thoracic / high, upper chest
 - a. Better chance of quick incapacitation
 - **b.** Assess the threat
 - 2. One, well aimed shot to the head
 - a. If upper body hits do not immediately incapacitate
 - a. Body armor, drugs, adrenaline, etc.
 - b. Other alternative targets
 - a. Pelvic girdle
 - b. Ear/ temple (from the side)
 - c. Base of head/top of spine (from behind)

Training Division

- 1. Shooter will load three magazines, five rounds each
- 2. At the instructors command, shooter will engage the target with three rounds as accurately as possible.
- D. Balance of Speed/Accuracy Drill....5, 7, 10 yards, 15 rounds (5 rounds per magazine)
 - 1. At each distance, officer will engage the target with five rounds as quickly as they can maintain 10 ring accuracy.
- - 1. On command, shooters will fire 3 rounds at the target
 - a. Step off line right or left
 - b. 2 rounds to the body
 - c. I round to the head
 - d. Repeat 4X (shooters should reload on their own)

VII. PISTOL MALFUNCTIONS

- A. Tap, Rack, Assess
 - 1. Causes
- a. Failure to Feed (no round in chamber) or
- b. Magazine not properly seated in weapon
- 2. Immediate Action Drill
 - a. Step off line left or right
 - b. Tap up on the bottom of the magazine to ensure it is properly seated in the weapon,
 - c. Rack the slide to properly chamber a round,
 - d. Go continue addressing situation.
- B. Range Drill #1 (Tap, Rack, Assess)......7 yards/ 9 rounds
 - 1. Set up weapon so the chamber is empty (slide forward, in battery)
 - 2. Loaded magazine in weapon
 - 3. On command.
 - a. Fire 1-3 rounds on target
 - i. Shooter should hear a click
 - ii. Perform Tap, Rack (which should chamber a round) and Go.
 - b. Repeat 2X

Note: Remind shooters they need to utilize the proper draw and follow-through/ Scan and Assess techniques during each string of fire.

VIII. WEAPON RELOADING

- A. Tactical Reload
 - 1. Purpose
- a. To bring the weapon back up to full ammo capacity during a gunfight,

Training Division

- b. While also retaining partially spent magazine
- c. Done during lull in the gunfight
- d. Done from a position of cover if possible
- 2. Technique
 - a. Combat Communication..."LOADING!"
 - i. Wait for "COVERING" response.
 - b. Keeping one hand on the weapon with the used magazine still inside,
 - Obtain a fresh magazine with the other hand and bring it up to the weapon.
 - d. Release the used magazine into hand for retention,
 - e. Quickly insert fresh magazine into the weapon bringing it back up to full capacity,
 - f. Tap the newly inserted magazine to ensure it's properly seated
 - g. Retain used magazine in a pocket or magazine pouch
- - 1. Shooters draw to the ready position
 - 2. On command, shooters perform tactical reload
 - 3. Repeat 2X
- - 1. Range Set up
 - a. Barricades at 10 yard line
 - 2. Shooters draw to the Low Ready position
 - 3. On command, shooters fire 2 rounds on target
 - 4. Shooter will seek cover (Barricade)
 - 5. Shooter will perform Tactical reload behind cover
 - 6. Repeat 2X (once with "Challenge command)
- D. Emergency Reloading
 - 1. Causes
- a. The magazine is empty and slide is locked back.
- 2. Immediate Action Drill
 - a. Press magazine release and drop empty magazine
 - b. Step off-line to left or right,
 - c. Insert a fresh magazine,
 - d. Release the slide forward.
 - e. Step off-line to left or right,
 - f. Continue addressing situation.
- 3. Range Drill (Emergency Reload)...........5 yard line/ 6 rounds
 - a. Set up weapon so there is I round in the chamber
 - b. An empty magazine in the weapon

Training Division

- c. On command,
 - i. Fire 2 rounds on target
 - 1. Perform emergency reload
 - ii. Repeat 2x
- E. Pros and Cons of the Reloads
 - 1. Emergency Reload
 - a. Pros: All rounds are fired toward the threat before any magazine reload
 - b. Con: Shooting dry in effect is a stoppage and the weapon isn't useful until it is reloaded. The time taken for the reloading is when the officer is most vulnerable and unable to deliver any defensive rounds.
 - 2. Tactical Reload
 - a. Pros: Allows the officer to keep the weapon fully loaded for a gunfight and retain their magazines thus keeping all rounds for use if necessary.
 - b. Cons: Conducting Tactical Reloads requires some fine motor skills during the magazine exchange and is best conducted during a lull in the gunfight

IX. SUPINE SHOOTING

- A. Purpose
 - 1. To allow the shooter to fire accurately from the supine position.
 - 2. To allow the shooter a safe option to fight to their feet from the supine position.
- B. Technique
 - 1. Roll onto non-dominant side hip 45° from target
 - a. Shield head with support side arm
 - b. Straighten dominant side leg
 - c. Draw pistol being aware of muzzle control
 - d. Point at threat
 - 2. Get up
 - a. Keep muzzle pointed at threat
 - b. Bring dominant side knee up to buttocks, foot on floor
 - c. Brace with support side hand
 - d. Push buttocks off of ground with support side hand and dominant side foot
 - e. Swing support side leg through and behind
 - f. Place support side foot on ground
 - g. Stand
 - a. Less fit shooters may have to brace up to a support side kneeling position before standing
- - 1. Range Set up

PSP Tactical Firearms Training

Richmond Police Department

Training Division

- a. Space shooters every other target.
 - a. Split class if necessary
- 2. From the supine position, 45° from target
 - a. On command shooters will;
 - a. Roll onto non-dominant side hip
 - b. Draw pistol and aim at threat
 - e. Fire twice (dry fire)
 - d. Get up tactically
 - e. Fire twice (dry fire)
 - f. Stand
 - g. Fire three times (practice failure drill-dry fire)
 - h. Repeat 2X
- D. Range Drill...(Supine Shooting)......5 yards, 21 rounds
 - 1. From the supine position,
 - a. On command shooters will;
 - a. Roll onto support side hip
 - b. Draw pistol and aim at threat
 - c. Fire 1-2 rounds
 - d. Get up (kneeling)
 - e. Fire 1-2 rounds
 - f. Stand
 - g. Fire 3 rounds (failure drill)
 - h. Repeat 2X

X. MOVEMENT LATERALLY

- A. Purpose
 - 1. Train the shooter to shoot safely and accurately while moving laterally
- B. Technique
 - 1. Reinforce the fundamentals of marksmanship
 - a. Shooting Platform
 - a. Upper body maintains stable platform, like the turret on a tank
 - b. Weapon at the ready position, muzzle downrange.
 - c. One handed or two handed grip
 - i. Shooter should maintain dominant grip of pistol, one-handed or two-handed depending on which side the target is on.
 - d. Body rotates to face threat to take advantage of body armor
 - e. Stance
 - i. Feet pointed in the direction of movement
 - ii. Crouched, knees bent

Training Division

- Bending the knees helps the shooter maintain the feet forward and body rotation.
- iii. Legs work like shock absorbers
- iv. No bounce
- v. Better response to uneven terrain

b. Movement

- i. Weight slightly forward
- ii. Feet move heel-to-toe
- iii. Roll on the outside of foot
- iv. Feet move in a straight line, about shoulder width apart
- v. Move only as fast as you can shoot accurately
- vi. Maintain sight picture on target
- vii. Keep moving, do not stop to shoot, do not stop to reload. Everything is done on the move!

C. Range Drill...(Lateral Movement - Box set up)......10 yards, 18 rounds

- 1. Range Set up
 - a. Three targets set three yards apart
 - b. Cones set up as a rectangle, furthest cones set at 10 yards, closest cones set at 5 yards
 - c. Shooters will move one at a time.
 - d. Shooters fire 2-3 rounds at each target, moving forward, moving laterally to the right, and moving to the rear.
 - e. Shooter will then conduct the same drill in the opposite direction.
 - f. Shooters reload while moving.
 - g. Shooters move only as fast as they can shoot accurately.

XI. El Presidente Drill – performance measurement drill....12 rounds

- 1. Range Set Up
 - a. Three targets at 10 yards
- 2. The shooter will begin facing up range
- 3. On the command to go (or the timer), the shooter will turn to face the targets, draw and deliver two rounds to each target, reload and deliver two rounds to each target.
- 4. Par time is 10 seconds. Hits outside of the 10 ring add .5 seconds to the raw time.

XII, HANDGUN QUALIFICATION

- A. Purpose
 - 1. To assess an officer's competence with their sidearm.

Training Division

- 2. To provide a quantifiable measurement of performance that an officer may use to self diagnose shooting proficiency.
- B. Safety
 - All shooters will be briefed on the course of fire and course lay out.
- C. Standard RPD Handgun Qualification Course

XIII. Tactical Shotgun Course

A. Purpose

The purpose of this section is to continue to reinforce the students muscle memory in the handling of the shotgun.

- B. Review: Shotgun Fundamentals (Lecture)
 - 1. Lecture
- C. Nomenclature of the Remington 870 Shotgun
- D. Types of Loading (administrative vs. tactical demo)
 - 1. Duty
 - 2. Deficit
 - 3. Combat
- E. Carry methods
 - 1. Administrative Carry
 - 2. Low Ready
 - 3. High Ready
 - 4. Retention
 - 5. On target
- F. Proper Shouldering of the Shotgun
 - 1. Stance
 - 2. Grip
 - 3. Shouldering, Cheek weld to Rear Stock
 - 4. Safety Manipulation
 - a. Setting On and Off
 - b. Indexing the Safety
- G. Movement Positions
 - 1. Low Ready Walk
 - 2. Tactical Walk
 - 3. Sighting the Shotgun
 - a. Importance of knowing how to aim the weapon
 - b. Increased accurate placement of pellets on target
 - c. Maximize effective shot placement for stopping power of pellets and minimize risk of stray pellets
 - 4. Follow Through/Scan and Assess with Shotgun
 - a. After firing the weapon follow the suspect to the ground,

Training Division

- b. Finger off trigger, safety off,
- c. After it has been determined the suspect is no longer a threat,
- d. Finger straight along the weapon, safety off,
- 5. Come up with the weapon and Scan and Assess the area for any other threats,
- 6. Then Safety On, Low Ready.

H. Range Drills....

- 1. Sighting the Shotgun
 - a. From the 25 yard line on a BT5-RPD target
 - b. From a Braced Kneeling position
 - c. Shooters will Combat load 3 Slugs into the shotgun
- 2. On instructors command:
 - a. Shooters will take 3 sighted shots to sight in
 - b. Slow fire, done at the shooters own pace
 - c. Targeting center mass
- 3. There should be an empty shotgun, action open/ safety on
 - a. From the 7 yard line
 - b. Shooters will duty load 4 bird shot rounds,
 - c. On instructors command;
 - d. Shooters will fire 2 rounds on target,
 - e. Follow Thru/ Scan & Assess
 - f. Deficit load 2 rounds,
 - g. On instructors command;
 - h. Shooters will fire 2 rounds on target,
 - i, Follow Through/ Scan & Assess
 - i. On instructors command;
 - k. Shooters will fire 2 rounds on target,
 - I. Shotgun should be empty,
 - m. Action open, safety on
- 5. Slug Select (20 yards)
 - a. On instructors command;
 - b. Shooters will load four rounds into the shotgun (car carry- empty chamber, safety on),
 - c. Shooter will chamber a round,
 - d. Shooter will load a slug into the magazine tube
 - e. Shooter will cycle the action, loading the slug and ejecting the chambered birdshot load,
 - f. Shooter will fire the slug into the chest of the target
 - g. Each shooter will repeat this drill four times
- 6. Rolling Thunder

Richmond Police Department Training Division

- This drill will help develop the students' ability to work the shotgun quickly under stress and develop teamwork and communication with other students
- b. The class will be broken up into teams of four
 - a. The drill will be done one team at a time, with all the team competing for the fastest time.
 - b. From the 5 yard line
 - c. Each shooter will need fifteen (15) bird shot
 - d. Each team will fire the following course on instructor's command;

First string:

one (1) rounds each

Second string: Third string:

two (2) rounds each three (3) rounds each

Forth string:

four (4) rounds each

Last string:

five (5) rounds each

PSP Tactical Firearms Training

<u>Richmond Police Department</u> Training Division

MEMORANDUM

TO:

Captain A. Williams

Lieutenant L. Curran Sergeant T. Simmons

FROM:

Lieutenant L. Tirona

DATE:

April 7, 2014

SUBJECT:

Advanced Officers Perishable Skills Training, April 3, 2014

On Thursday, April 3, 2014 Detectives C. Decious, DeOrian, Vegas and I provided firearms training to the following officers (next to each name is the individual score for the annual qualification):

N. Lonso	270	B. Hodges	245
M. Shanks	255	K. Nguyen	245
P. Davis	275	C. Calderan	275
B. Macrenato	245	W. Jensen	255
A. Moreno	265	J. Boyd	270
R. Munguia	245	J. Moody	280
J. Clark	280	R. Ireland-Clark	230
M. Brown	265	A. Vegas	295
M. Canelo	295	K. Tong	255
T. Kaiser	280	91302 123000100	

The course outline was submitted with the memorandum dated January 16, 2014 (the first session of this block of instruction).

LT:It

MEMORANDUM

TO: Firearms Instructors

FROM: Lieutenant L. Tirona

Sgt. T. Mollenbernd

DATE: August 18th, 2014

SUBJECT: FIREARMS TRAINING SYLLABUS - AUGUST 2014

Focus: To allow officers to engage in simulated deadly-force encounters and

prevail.

Methodology: Officers will utilize "Air-Soft" Simulated Firearms in a single officer vehicle-

stop scenario. The officer will face a possible deadly threat and must

respond appropriately.

After completing the scenario, the Firearms & Tactics Instructor shall

evaluate the officer's performance.

Location: We will utilize the northeast corner of the police parking lot for training.

Equipment: The RPD Auto Theft BAIT car (White Honda Accord 2-Dr CA# 6ASP614)

> will be used as the role player/suspect vehicle. The car is parked in the POV area of the police lot. The ignition key is on a blue Viper alarm key fob and will be located at Det. J. Clark's desk on his key hook. Return the

key to Det. Clark's desk at the end of each shift.

The officer shall utilize their patrol vehicle and make simulated radio transmissions. The role player "suspect" shall be dressed in civilian

clothing.

The officer shall only wear his/her uniform shirt without vest along with protective eyewear. This will allow the officer to "feel" any hits from the role player's simulated firearm, adding to the stress and realism of the

scenario.

WEDS: DECIOUS / VELAS, THRS DECIOUS / DECRUM!

The role player shall wear a full protective face mask, as the role player is likely to be struck with numerous projectiles during the course of the training block.

Set Up:

Each session should take approximately 20 minutes to complete. Contact the team sergeant to send a solo officer every 20 minutes to the training site once training begins.

Training:

- Review the Four Firearms Safety Rules.
- 2. Ensure that <u>all participants</u> in training shall not have <u>any</u> live weapons and/or ammunition in the training area (to include OC/ECDs/batons, knives, etc.).
- 3. Familiarize the officer with the "Air-soft" simulated firearm.
- 4. <u>Scenario #1</u>: With the role player seated in a vehicle (11-95), the role player will engage the officer upon the officers' approach near the role players' car. (role player remains seated in the car)

The officer will have to respond (preferably by drawing his/her sidearm, moving to cover and engaging the role player). Once the role player has been "hit" several times with good center mass shots or good simulated shot placement/ trajectory through the automotive glass or car body, the role player should remain "incapacitated." The officer should find a position of cover, scan the area for additional threats and wait for back-up (if back-up was called for).

Critique officers' response / tactics to threat and repeat scenario if necessary.

Scenario #2: With the role player seated in a vehicle, the role player will engage upon the officers' approach and exit the vehicle while continuing to engage and go after the officer. (role player will stop advancing at the back of the role players car and become incapacitated with good center body mass hits from the officer).

Critique and repeat scenario if necessary.

Scenario #3: The role player will have an air-soft gun concealed on their person. The role player will inform the officer the status of their driver's license is suspended and they also have a no bail warrant for shop lifting, thus prompting the officer to remove the role player from the car during the scenario.

The officer should request a cover officer (Instructors will simulate they are the cover officer). The officer should use proper control techniques in removing the role player

from the car to be handcuffed and/or pat searched. If the officer does not use proper control in removing the role player from the car, the role player will access the concealed air soft gun and engage the officer.

Repeat scenario if the officer does not use proper control techniques and/or allows the role player to access the weapon.

5. The Firearms & Tactics Instructor will then review the officer's performance, making any possible suggestions for improvement.

Note:

The goal of this training block is to provide officers with an opportunity to successfully engage in a simulated lethal-force encounter and also assess non shoot situations.

Please ensure that all personnel strictly adhere to wearing the appropriate eye/ear protection at <u>all</u> times during training. Horseplay will <u>not</u> be tolerated.

All required training equipment and protective gear will be in the armory.

Make sure each officer signs a monthly training form.

MEMORANDUM

TO:

Firearms instructors

FROM:

Sgt. T. Mollenbernd

DATE:

January 21, 2013

SUBJECT: FIREARMS TRAINING SYLLABUS- JANUARY 2013

REVIEW OF FIRARMS SAFETY RULES:

All guns are always loaded. 1.

Never allow the muzzle to cover anything you are not willing to destroy. 2.

Keep your finger off the trigger until your sights are aligned on target and 3. you intend to shoot.

Be sure of your target. 4.

DEPARTMENT POLICY REIVEW:

300.4	DEADLY FORCE APPLICATIONS
300.4.1	SHOOTIING AT OR FROM MOVING VEHICLES
312.5	WARNING AND OTHER SHOTS
312.6	DESTRUCTION OF ANIMALS
312.6.1	INJURED AMIMALS
312.7	REPORT OF FIREARM DISCHARGE

This month's firearms training will focus on pistol presentation and reloads.

Training will be conducted at the 7 yard line. Paper targets will be used.

- 1. Proper draw and speed of draw to on target (approx. 1.5 seconds) with round(s) fired. Have shooter dry practice until reasonable speed vs. accuracy is obtained. Add lateral movement with the draw under same time frame. Dry practice until proficient.
- 2. Proper reloads: reload reference point and proper index of magazine. Lateral movement or movement to cover during reload.
- 3. Live fire until proficient (approximately 24 rounds) Have officers carrying high capacity magazines unload to partial magazine capacity to get in reloads.
